Easy to maintain
Preventive and corrective maintenance is simple.

Room thermostat
Once set, the temperature remains constant despite thermal variations. The flame adjusts to the temperature of the room, which prevents overheating, gas wastage, and noise pollution.

Large heavy-duty grill in die-cast aluminum
Allows for better heat flow. The back of the unit is kept at room temperature, which prevents the wall from becoming soiled.

Glass-ceramic window

Installation kit included

camping – BBQ – heating – service parts
